LYNCHING MUST STOP, SAYS THE ENGLISH PRESS

WILL HAVE TO SUPPRESS LYNCHING OR THE UNITED STATES WILL CEASE TO BE A WORLD POWER. MUST EITHER PROTECT HER CITIZENS OR TAKE HER PLACE AMONG SAVAGES.

CUTS OUT JOB FOR WILSON

Spectator Predicts Uncle Sam Will Retain Philippines and Counsels president to put end to Lynchings.

LONDON, March 8.—The Spectator, discussing in an editorial today the administration of Pres. Wilson, predicts that the United States government under the democratic regime will not withdraw from its control of the Philippines. The newspaper declares that the existence of the Panama Canal, the safety of which, it says, depends upon the maintenance of peace in the excitable little republics in its neighborhood, reveals the hollowness of the pretense that the United States government has no need to influence the affairs of other countries.

The Spectator finds Mr. Wilson's greatest opportunities to enforce his ideals lie in his adopting a bold and unequivocal interpretation of the Hay-Pauncefote treaty, and in putting an end to lynching. It suggests that Mr. Wilson send a message to the Senate declaring that no question of financial advantage to the United States is to be compared with the vital necessity that the republic's good faith should be above suspicion. Regarcing lynching, the Spectator says:

"A man of high political courage in the chief magistracy should stop lynching if America is to retain its title as a civilized country, and passionately do we who love her, desire that she should retain it. She must put down lynghing. We do not say to marry them (the Negroes) or to ask them to dinner, or even to sit in the same cars with them. What we do say is, stop burning them alive."

"OUR DUTY TO CLEANSE AND RESTORE," DECLARES WILSON

Following are phrases and sentences from President Wilson's inaugural address:

We have squandered a great part of what we might have used and have not stopped to conserve the exceeding bounty of nature.

The great government we loved has too often been made use of for private and selfish purposes and those who used it had forgotten the people.

Our duty is to cleanse, to reconsider, to restore, to correct the evil without impairing the good.

We must alter the tariff, the banking and currency system, the industrial system, give business efficiency to agriculture, utilize all natural resources.

We have studied, as perhaps no other nation has, the most effective means of production, but not cost or economy.

Justice to our people demands sanitary laws, pure food laws and laws determining conditions of labor.

It is inconceivable that we should do this as partisans. We shall restore, not destroy.

We shall make our economic system step by step what it should be.

JUSTICE FOR ALL HIS MOTTO

President Wilson's Inaugural in part as follows:

"Nor have we studied and perfected the means by which government may be put at the service of humanity, in safeguarding the health of the nation, the health of its men and its women and its children, as well as their rights in the struggle for existence. This is no sentimental duty. The firm basis of government is justice, not pity. These are matters of justice. There can be no equality or opportunity, the first essential of justice in the body politic, if men and women and children be not shielded in their lives, their very vitality, from the consequences of great industrial and social processes which they cannot alter, control or singly cope with.

"Society must see to it that it does not itself crush or weaken or damage its own constituent parts. The first duty of law is to keep sound the society it serves. Sanitary laws, pure food laws and laws determining conditions of labor which individuals are powerless to determine for themselves are intimate parts of the very business of justice and legal efficiency.

"These are some of the things we ought to do, and not leave the others undone, the old-fashioned, never-to-be-neglected, fundamental safeguarding of property and of individual right. This is the high enterprise of the new day: to lift everything that concerns our life as a nation to the light that shines

from the hearthfire of every man's conscience and vision of the right. It is inconceivable that we should do this as partisans; it is inconceivable we should do it in ignorance of the facts as they are or in blind haste. We shall restore, not destroy. We shall deal with our economic system as it is and as it may be modified, not as it might be if we had a clean sheet of paper to write upon; and step by step we shall make it what it should be, in the spirit of those who question their own wisdom and seek counsel and knowledge, not shallow self-satisfaction or the excitement of excursions whither they cannot tell. Justice, and only justice, shall always be our motto.

THE ACT OF SAVAGES. WHITE HOODLUMS ATTACKED THE HOMES OF NEGROES WITH IMPUNITY.

The attempt of white hoodlums to drive Miss Susie Anderson and her aged mother from their home in the Hollywood residence district, is a disgrace not only to the citizens of that neighborhood but to this city as well. The bombardment of the Anderson home with stones, dead animals, and the smashing of bottles filled with unmentionable filth against the handsomely painted walls was the act of savages. And the pity of it all, these outrages perpetrated, as they were upon the lone respectable women, has called forth no word of condemnation from the respectable white residents.

Miss Anderson's only crime is that she is a Negro, and dared with her hard earned money to buy a home for her aged mother in a so-called high-toned district. Then, to add insult to injury, the Anderson home is said to be one of the nicest in the neighborhood—nicer than many occupied by the neighboring whites.

The white people of that section boast of their inteeligence and culture, they have schools and churches which they attend and seem to think themselves religious.

That acts of vandalism of this kind are tolerated, go unpunished in this city simply because the victims are Negroes, is a disgraceful reflection upon both the city administration and police department. Reverse this outrage and see what would happen.

Contrast the Good Government administration with that of ex-mayor Harper in dealing with a similar situation. The white Christians of Edendale, another suburb that boasted of its Christian culture, decided that a respectable Negro who had bought a home there should not occupy it. When the matter was bought to the notice of the mayor he notified those good people that lawlessness would not be tolerated. And, that the Negro should have peaceable possession of his premises if it required the whole police department. But Mayor Harper, who thought that Christians should live up to their profession, was a sinner.

A FRIEND OF NEGROES

Booker Washington Declares That Next President is One of Best Friends of Colored Race.

NASHVILLE (TEnn.) March 1.—Booker T. Washington, the Negro educator, discussed the attitude of President-elect Wilson to the Negro. He said.

"Mr. Wilson is in favor of the things which tend toward the uplift, improvement and advancement of my people and at his hands we have nothing to fear. My belief is that the next President of the United States is one of the best friends of Negro education that has ever occupied the Presidential chair."

Dr. Washington is on the way to the State of Washington where he will make a speaking tour.

A LABOR MAN IN THE CABINET

The tendering of the labor portfolio to Mr. William B. Wilson, a member of organized labor, is an act of justice on the part of the president.

It shows that as far as the President can secure it, each interest shall have a personal representative.

This is the first time that the toiling millions have been considered in cabinet making. Such consideration was heretofore regarded as a matter that concerned only the exploiters of the toilers. Coming up from among the toilers, Secretary Wilson is a representative of every man, woman and child who labors. In view of the fact that those who have made, and are making millions exploiting labor, know neither race or color in their blind chase for dollars, the breach between white and colored working men will have to be closed up.

The great body of Negroes are laborers; this being true, every law enacted for the protection of white labor will benefit the Negroes. The law that shortens the white man's hours of labor will also shorten those of the Negro. Increase the white man's pay and the Negro laborer doing the same class of work will have his pay increased.

Through Sec. Wilson the interest of all labor will be looked after.

A new day has dawned.

A Strong Cabinet.

The cabinet headed by Col. W. J. Bryan is composed of strong progressive men. They are all men of experience in public affairs whose aid the president will need in settling the many difficult problems left over by the Taft administration. Buchanan is the only president that surpassed Taft in leaving trouble for his successor.

The Liberator not only aided in the election of the President Wilson, but supported Sec. Bryan twice for the presidency and supported Sec. Lane for governor of this state in 1902.

PRESIDENT WILSON'S INAUGURAL ADDRESS

The inaugural address of President Wilson is a statesman like document and commends him to all who place human welfare above money getting. His position, that the mission of the government is the d i s p e n s i n g of justice, will not meet the approval of the few who have piled up millions by exploiting labor, but it is the rock upon which the government will have to build its foundation, if it is to premanently exist. President Wilson does not regard his election as a democratic victory but a great movement of the people in search of relief from intolerable conditions that have grown up in the past sixteen years of republican rule. The condition of the negroes grew so intolerable under President Taft that something like 600,000 negro voters cast their ballots for Wilson knowing that, if conditions did not improve they could not grow worse. Believing that many of the Negroes political woes were due to their blind partisanship, we have fought for a division of that vote for sixteen years. That is now an accomplished fact. The solid negro vote is a thing of the past. If the democratic party fails in its duty to the negro voters they will not return to the republican party; there is no hope there. The president's inaugural address is a splendid document and his appeal for justice will find echo in the hearts of ten million negroes whose hard lot is a blot on the nation's history.

THE ELDORADO GOLD STAR MINING COMPANY'S STOCK SELLING RAPIDLY.

The stock in this company is selling rapidly and the managers hopes to install their cyanide plant and commence crushing the ore already mined. A party offered to furnish all money needed to install the plant and take stock in exchange. This offer was rejected owing to the fact that colored men are buying the stock at a rapid rate. This company is offering splendid opportunities for profitable investment.

VICE PRESIDENT MARSHALL

Advocate of Peace.

"If any one in the name of the American people, either in violation of treaty obligations or the manifest purpose of the Munroe Doctrine, has taken aught while this body was deliberating, it is your duty to ascertain all facts thereto. And if wrong or injustice has been done, even to the humblest republic, let this people be brave enough and sufficiently honest to make reparation. The real greatness of this republic rests upon its unsullied honor and it is the duty of this body to search down rumors of bad faith and dishonesty and rectify wrong wherever wrong is discovered.

"Here in this most sacred spot where war has been made and peace declared, here in the presence of the distinguished representatives of the governments of the civilized world, here, within the hearing of the beauty, culture and ripened statecraft of his own land, may one humble American express the hope before he enters upon a four years' silence that all our diplomacy may spell peace with all peoples, justice for all governments and righteousness the world around."

One of the Negro's serious drawbacks is his refusal to recognize one Negro as knowing more than another. When he overcomes this difficulty he will respect and follow leaders.

IMPORTANT MEETING

The federated council will hold an important meeting at 831 San Pedro Street, Thursday, March 20th at 3 o'clock. UNCLE SAM'S BLUFF CALLED

For the past fifteen or twenty years the United States government has been making a bluff of being a world power, during the same time it was too weak to protect its own citizens at home. If this government can protect its citizens at home, but refuses to do so on account of race or color prejudice it has no place in the family of civilized nations. If it is unable to protect its citizens at home it is rank presumption to attempt to pose as a world power.

The London Spectator, a leading English paper has warned President Wilson to put a stop to lynching if the United States hopes to continue to occupy a seat at the table of civilized nations. There is nothing unjust or unreasonable about this request—it is the dictate of justice.

It is high time that some power call a halt to this American lynching barbarism. As this nation loves to boast of its Anglo-Saxon origin, the warning to discontinue this lynching barbarism comes from the right quarter.

The lynching record this country has made in the past twenty five years is the one hideous black shadow on the escutcheon of this Christian age. It is an inexcusable crime attended by such brutality, fiendishness and cowardice, that it has won for this country the contempt of every nation of the old world and the hatred and suspicion of the Latin republic on the south.

THE WHOLE WORLD SHOCKED

The lynching, which took place at Houston, Miss., on Feb. 11, shocked the civilized world. A white person was robbed and murdered; a Negro man and woman was arrested on suspicion as perpetrators. They were promptly hanged after which they were found to be innocent. Another Negro, said to have in his possession incriminating evidence pointing to his guilt, was chained to a stake in the court house yard in the presence of the white women and children of the town, his body was covered with boiling tar and a lighted torch applied. That shocking outrage has been condemned nowhere in this country. Of course, the American people, accustomed to such outrages, could not be shocked. They were too busy, as a world power, protecting life and property in Mexico.

There is an end to all things and this country will either have to put an end to lynching and its progenitor, color prejudice, or the twain will put an end to it. Color prejudice is the bottom of this whole brutal business. This country will either have to protect its citizens or surrender its place as a civilized nation.

The American people are fooling nobody but themselves.

Negro Citizens Not Considered.

The consideration given the Negroe's petition for the appointment of Mr. C. C. Flint to the place in the City Council made vacant by the death of Judge Lusk is strictly in keeping with the treatment that they, the Negroes, have always received at the hands of the Good Government administration. The Negro voters were not deceived; they expect nothing from these reformers. If Flint had received say, one or two votes it would have been some consideration for the support given these councilmen when Socialism threatened to engulf them. But to give the Negro a man's consideration is not in them. That Good Government bunch won't vote for a Negro. And the Negro will be safe in voting against everything they stand for.

In the last municipal campaign the Negro voters gave these Good Government reformers some 10,000 to 15,000 votes from whom a Negro candidate for office could not get one vote. In the same campaign the Socialists nominated a Negro for the city council and gave him 40,000 votes. Think this over Mr. Colored voter.

Mr. C. C. Flint has been a resident of this city for more than twenty five years. He is a successful grocer and taxpayer; a public spirited citizen who has always taken a prominent part in matters for the city's advancement. He had the solid backing of the thoughtful colored citizens.

"Texas has a fine school fund and numerous fine public and private schools; therefore it is surprising to learn that the educational standing is so low in this State, Texas being only thirty-eighth in the list of States," says the Houston Chronicle. Nothing surprising about it at all. Texas has no compulsory school law. Whites are not compelled to send their children to school because the same law would compel colored parents to send their children to school. That is why popular education is so backward in all Southern States. It is agreed that Negroes should be educated, but no compulsory school laws will be passed because they will compel Negro children to attend school.—Oakland Tribune.

Eldorado Gold Star Mining Company

Makes an Important Announcement

The offer now mada to the stockholders, and other persons who desire to become such, by the Directors of the Eldorado Gold Star Mining Company is seldom excelled by any corporation.

During the year 1912, the work on the properties was cautiously prosecuted under the direction of a competent Mining Engineer, with a force of men who worked like trojans.

In November and December, rich ore veins were encountered, which led into tremendous bodies of ore, consisting of gold, silver, lead and iron.

Several tests made by R. A. Perez—Assayer, Chemist and Mettallurgist established in 1895—at 120 North Main street, gave average values ranging from $15 to $48 per ton.

There are numerous veins from six to eight inches in width which gave values much higher—these widen as depth is attained.

Two expert Mining Engineers, sent to the property December 7, 1912, to make specific tests, and investigation of the holdings of the company, established the fact, that a sufficient quantity of ore is already blocked out on the Gold Star property, and its recent acquired holdings, to warrant the installing of a Crusher, and a daily 50 ton capacity Cyanide Plant.

Recent tests show, that ores on these properties can be treated, or the values drawn out by the Cyanide-process, at a cost not exceeding $2 per ton.

A point of vital importance—A Plant of 50 ton capacity, the daily out-put of the $15 ore would amount to $750—of the $20 ore, daily out-put $1,000—of the $30 ore, daily out-put $1,500—of the $40 ore, daily out-put $2,000—of the $48 ore, daily out-put $2,400.

These figures represent the gross receipts, and intended only to point out to race Builders, the urgent need of co-operation, that the plant may be installed at the earliest possible date.

The Board of Directors have authorized a dispensation, for a short period, which provides that persons already stockholders, can buy the $1 shares of the company's stock at 50 cents a share. Persons not stockholders are required to pay five dollars, for the first five shares of stock, after which they can buy the stock at 50 cents a share, as regular shareholders do, during the life of the dispensation.

The Corporation, owns two proven Claims of 20 acres each, outright, and also one-half interest in eleven (11) other Claims, contiguous to the Gold Star property. On the former Claims there are blocked out—and on the dumps ready for treatment, ores amounting to $120,000. On dumps of latter eleven (11) Claims $200,000 to $300,000 in tonnage, average values from $10 to $20 per ton, besides a large tonnage, values of which are much higher.

The properties are located in the radius of a proven mineral zone, 6x16 miles. In the Eldorado Canyon District, in the Nob-Hill Section of Country, in the Opal range of Mountains, Clark County, Nevada, 18 miles northeast of Searchlight, the terminus of the Santa Fe Branch Road from Goffs, California, by Barnwell, to that point. The yield of the district in gold to date $17,000,000. The government reports show, that the zone has been little developed compared to its vastness.

The Capital stock of the corporation being $300,000 has been decreased to $100,000—thereby increasing the dividends to be paid by a two-fold ratio.

TIMELY NOTICE, the Cyanide Plant and Machinery, essential, and adapted to the character of ore and its treatment, on the company's properties, will be fully determined by expert Mining Engineers, so that no mistake will be made in that matter.

The Plant must be installed, and will be installed very soon, that fact is already assured.

The time is not far distant, that all stockholders who didn't increase their stock in the Corporation as opportunity afforded, will regret exceedinly of not having done so—and the non-stockholders would be too glad to accept a place on the Band-Wagon, but shall only be able to witness the signal displayed, with the disagreeable announcement too late! Nothing for sale by this Corporation!

Conclusion: A home means so very much to every person of a sane mind, but it should be remembered, that a home should carry in it—independence and happiness. To illustrate—Let the battle of life be reckoned complete, within the radius of 2020 miles. Let it be said to own a a home is 1000 miles—that means much. Let it be said that the establishment of independence and the comforts of life in that home, is 1020 miles, that means more.

Invest your money in the stock of this Corporation, and assist to install the required Plant—and independence and the comforts of life will crown your home as a result of your investment.

For further information, you are cordially invited to call at the office of the Corporation, where you will be courteously received, and such other questions as you desire to know answered.
